Illinois Institute of Technology

Summer 2016

Architectural Robotics Schedule

Bill of Materials:

- Particle Photon Starter Kit (U\$ 29.00)
- Motor (about \$ 20.00)
- Motion Sensor (U\$ 9.95)
- Wires (value and quantity uncertain)
- Wood (value and quantity uncertain)
- Fabric (value and quantity uncertain)
- Hinges (value and quantity uncertain)
- Screws (value and quantity uncertain)

Schedule:

Week 5 – Make a prototype of the chair and think about the open=close mechanism.

Week 6 – Develop the open and close mechanism with the chair.

Week 7 – Program the code for the project.

Week 8 – Finalize the project, have a five pages paper about the research, do the presentation.
